

SARALA INDUSTRIES

Where dreams become concrete realities

Engineered Concrete Blocks Production

Why Us

- We are the pioneer to bring Columbia Vibration Technology(CVT) to Mysore.
- Every piece of our product is manufactured, tested, maintained and exported by Engineers.
- We cure every piece of our product naturally associated with Humidifier technology & no admixtures are used.

Project guidance and consultation by:

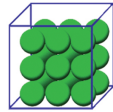

deep consultants

Machinery and Technology

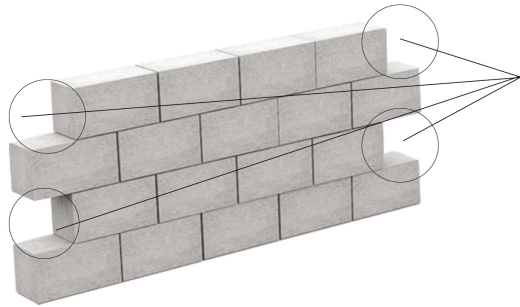

We are the pioneer to bring American made Columbia machine to Mysore Which uses unique technology called COLUMBIA VIBRATION TECHNOLOGY (CVT) to produce high dense and high strength concrete products.

Advantages of CVT

			
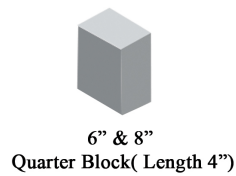

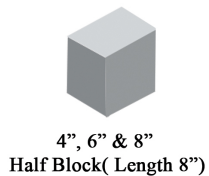

UNIFORM DENSITY	PRECISE HEIGHT CONTROL	UNIQUE TEXTURE	HIGHER STRENGTH

Half & Quarter Block

At this point masons needs to cut the full size block to half/quarter to fill the gap which may occur in the column wall junction or between new wall to old wall.

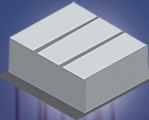

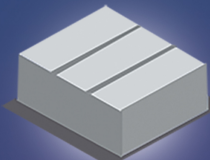

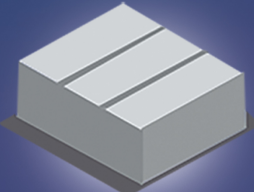

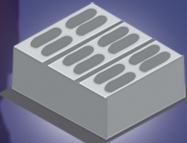

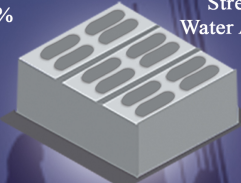

So to avoid the wastage **SARALA INDUSTRIES** has introduced

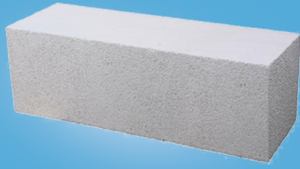

Advantage of using Half and Quarter Blocks

 Time Reduction	 ~0% Wastage	 Cost Saving

Our Products

 <p>4" Solid Block Size: 400x100x200 mm Weight: 16.4 - 16.8 kg Density: 2050 - 2100 Kg/m³ Strength: 8.83 Mpa Water Absorption: 3.69%</p>	 <p>6" Solid Block Size: 400x150x200 mm Weight: 24.6 - 25.2 kg Density: 2050 - 2100 Kg/m³ Strength: 8.78 Mpa Water Absorption: 3.11%</p>	 <p>8" Solid Block Size: 400x200x200 mm Weight: 32.8 - 33.6 Kg Density: 2050 - 2100 Kg/m³ Strength: 6.91 Mpa Water Absorption: 3.05%</p>
 <p>6" Hollow Block Size: 400x150x200 mm Weight: 19.62Kg Density: 1634.5Kg/m³ Strength: 6.33Mpa</p>	 <p>8" Hollow Block Size: 400x200x200 mm Strength: 10.86 Mpa</p>	
 <p>Uni-Stone Paver Size: 225x112.5x80 mm Strength: 51.26Mpa</p>	 <p>Kerb Stone Size: 450x400x150 mm</p>	

* Strength mentioned are 7th day strength * All products are tested at NIE - CRC

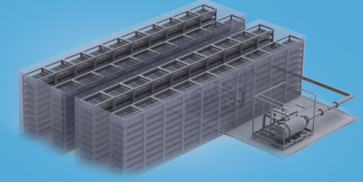

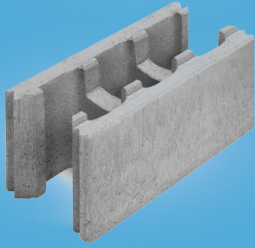

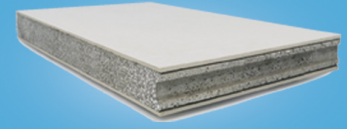

Upcoming

Light weight blocks

Lightweight panels

Mortarless block

Steam curing

About us

Sarala Industries was started with the aim of providing Hi-Tech fully fledged manufacturing facility with the focus of world class engineered product and sustainable future at reasonable cost.

Sarala Industries

 #105, Adakanahalli industrial area,
KIADB Nanjangud Mysore District.
